Impending tragedy! Ideas conceived can be wrongly executed.

You are conceived – you vibrate – you transmute – you are born –

You are one with the Breath, but can you breathe? You are conditioned –

You responded to the internal and external environment – Nature/Mother Earth -

- your mind is being nurtured/conditioned – speech patterns muted or developed

– your inner core is sheltered by parents or members of the Human family – you

embraced dimensions – you responded to the gravitational pull within or without

the limitations of three dimensional Beings of limiting reality to a sequence of

numbers (n). Is there a fourth dimension? What about ten dimensions to see the

other side or go through it! Dissect transactional “Beings” – they redefine

morality – they are self-centered, self is paramount! They deny anything and

everything – they construct their own reality in framing commercial enterprises placing humans as pawns while they ruin communities and nations!

That is why the struggle continues to decolonize the core of the Human Mind from imperial projects! Innateness must be reaffirmed! Non–linearity!

You are perfect within the scope of your limitations; access opportunity and circumstance! Undo the Psychosis through education, not training! Is the universe finite/limited? Is the universe Holographic? Are there such things as grass roots intellectuals and common sense? What about critical consciousness and the universal common good? What is duality? What about the Human “Eye” and “Brain”, Metu Neter, indigenous perspectives, Self-determination and Human Rights?

The “I” “Me” “You” in concert/syncopating. Rhythm! Rhythm! Rhythm! Drum! Drum! Drum! Be Transformative and collaborate from the ground up!
