

Aspects – poetry, prose, essays and anecdotes – By Arnold Bathersfield

EMANATE!

Prince Rogers Nelson – “the artist” - a prolific musicologist was seeded to the ancestors Thursday April 21, 2016. He understood and magnified his portion and aspect fusing breath, rhythm, vibration, light and color, while embracing the phenomena of non-linearity and elevation which enabled him to transcend “The Aesthetic of Blues”. Many argue and suggest that everything musically by African Americans emanated from “Negro Spirituals” and “Blues”. I am inserting – “Interconnection” - “The Spoken Word’ – expression of innate vibratory thoughts – the breath - rhythm – light and life energy, which Prince “the artist” captured and fused the elements of the matrices and created his truism – “Ocean of Life”. Thus he embraced his creativity – his word – his genius while elevating consciousness.

Peace be unto him!

EMANATE!
